

Notice of Project Change

Project Name: North Burgess Solar

Project Applicant: Northland Power North Burgess L.P.

Project Location: Part of Lot 13, Concession 9, Tay Valley Township, Ontario

IESO FIT Number: FIT-F0HJPWL

Project Description

The North Burgess solar project is a Class 3 solar facility with a maximum name plate capacity of 10 MW and uses solar photovoltaic technology to generate electricity. The project has been operating since 2014 under Renewable Energy Approval (REA) #5149-8YPMVG.

Project Change

Northland Power is proposing to install a small diesel storage tank with a maximum capacity of 1200 L on the project site to fuel maintenance equipment. To allow for the installation of this storage tank, Northland Power has applied to the Ministry of the Environment, Conservation and Parks to amend the project's REA.

Project Documents

A Modifications Document has been prepared to provide additional information on the proposed project change, including a summary of how previous REA supporting documents have been revised. This document is available online at https://northlandpower.com/What-We-Do/Operating-Assets/Solar/North_Burgess.aspx
